AHSAN REHMAN

Artificial Intelligence Engineer

Faisalabad, Pakistan | +92-315-7544153 | ahsanfsd99@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

BS Artificial Intelligence student at The University of Faisalabad, specializing in AI-driven automation, workflow orchestration, and applied machine learning. Skilled in building n8n automation pipelines that connect AI models and business systems to eliminate manual work alongside end to end computer vision and NLP projects spanning detection, classification, and document/resume intelligence. Comfortable integrating Python-based ML models into automated workflows and deploying practical, production-style solutions.

TECHNICAL SKILLS

Automation: n8n (workflow design, scheduled triggers), Workflow Automation, Process Automation
Languages: Python, C++
Computer Vision: OpenCV, YOLO (v8), ByteTrack
NLP: NLTK, spaCy, Transformers (HuggingFace)
Machine Learning & Data Science: Scikit-learn, TensorFlow, Keras, Pandas
Web: HTML, CSS

AUTOMATION & AI PROJECTS

Inventory Tracking Automation System | *Tech: n8n, Google Sheets, Python*

- Built an end-to-end n8n workflow that automates inventory tracking, syncing stock data and sending low-stock alerts to eliminate manual reconciliation.

Parking Violation & Occupancy Monitoring System | *Tech: Python, YOLOv8, ByteTrack, FastAPI, SQLite*

- Built a real-time parking violation and occupancy monitoring system with configurable no-parking, loitering, and over-capacity rules, evidence capture, and a live alert dashboard.

Car Damage Detection | *Tech: Python, YOLOv8, Computer Vision*

- Developed a real-time vehicle damage detection system using YOLOv8 to identify and classify car damage from images, enabling automated inspection and reporting pipelines.

Weapon Alert System | *Tech: Python, OpenCV, YOLO*

- Developed a real-time weapon detection system using YOLO on live camera feeds, triggering automated security alerts upon weapon identification.

AI Resume Screening Tool | *Tech: Python, NLP, Scikit-learn, NLTK*

- Created an NLP-based pipeline to parse, rank, and screen resumes against job descriptions using keyword extraction and similarity scoring.

EDUCATION

BS Artificial Intelligence — The University of Faisalabad (TUF) *2023 – 2027*
